VASARI

The Natural Wall Plaster

LIME PAINT

Vasari Lime Paint is made with natural lime and powdered marble, It is environmentally friendly, healthy, and its qualities will improve with time. Vasari Lime Paint will breath with your home, absorbing moisture and naturally prevent mold or mildew growth.

Vasari Lime Paint compliments both traditional and modern settings. It can be applied in a matte, soft sheen or can be burnished to a polished shine. Its thicker mineral consistency allows it to be back-trowelled to create a light to moderate textured if desired. Colors and creative styles are unlimited.

Product Features: Light Texture/ Matte to Soft Sheen/ Soft Color Variation/ Indoor

Application

1. Mineral Primer

Lime paint should be applied on vasari mineral primer when painting new drywall. Allow at least 24 hrs for primer to completely dry.

2. First Coat

Vasari lime paint can be brushed, rolled or sprayed. Apply the lime paint to completely cover previous substrate. Allow at least 24 hrs for first coat to completely dry.

3. Second Coat

The second coat can be brushed, rolled or sprayed. When the lime paint is no longer "wet", it can be softly burnished with a trowel, sponge, dry brush, or cotton cloth. This will create more sheen and bring out the variation of color. Likewise, it can be left alone to dry completely matte.

Lime paint can be sealed with wax or mineral sealer for added protection againts dirt and stains.
